17 February 1961

MEMORANDUM FOR: Chief, Document Division

SUBJECT : Air Force Progress in Implementing Revised ISC in
Minicard System

1. Mr. Charles Stein and I met on Thursday afternoon, February 16, 1961 to discuss AFCIN's plans to train their personnel and the date set to start using the revised ISC.
2. AFCIN training in the revised ISC will be completed 5 March; full scale minicoding of Air information reports and selected reports of other agencies in accordance with revised code will begin 15 March. Air Minicode sheets will be sent to us for translation into Intellofax cards.
3. I feel reasonably sure that the AFCIN input into their system will be compatible with ours and that the conversion of their codes to ours will continue to be feasible and desirable.
4. Mr. Stein is studying the use of our 6, 7, and 8 area tag rules and will report to us within a week whether he can adopt these rules and translate the tags into Minicard tags.
5. We discussed their "not Minicarded" program and the identification of such on copies of Air information reports. Mr. Stein will supply us with copies of their "not Minicarded" standards.
6. Mr. Stein advised me that he would keep us informed of their progress. I came away with the feeling that AFCIN wants to cooperate with us and I assured Mr. Stein that we would give any support to him that he needs.
